

Monkeypox virus C20L Expression Plasmid

Made to Order

Cat: MPYF-0722-KX1160

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Monkeypox virus C20L expression plasmid. The product is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Target	C20L
Species	Monkeypox virus
Strain	Zaire-96-I-16
Vector	Expression vector or lentiviral vector
NCBI Reference	NC_003310.1
Bacterial Resistance	Based on vector
Mutations	Based on specific requirements
Form	Lyophilized
Storage	Ambient temperature

Target

Target	C20L
Full Name	Hypothetical protein
Alternative Names	MPXVgp046; C20L; hypothetical protein; similar to vaccinia virus strain Copenhagen F14L; the poxviridae are enveloped unsegmented dsDNA viruses; unlike many dsDNA viruses that replicate in the host nucleus poxviruses encode their own replication machinery and therefore replicate in the cytoplasm; viral genes are expressed in a bi-phasic manner with early genes encoding non-structural proteins involved in genome replication and late genes encoding the viral structural proteins
Gene ID	928977
UniProt ID	Q5IXX9
