Goatpox Virus (Pellor) GTPV_gp014 Recombinant Protein

Made to Order

Cat: MPYF-1122-KX584

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Goatpox Virus (Pellor) GTPV_gp014 recombinant protein. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Specifications

Target Protein	GTPV_gp014
Species	Goatpox Virus
Strain	Pellor
Protein Class	Virology

Product Description

Expression Systems	Based on specific requirements
Protein Tag	Based on specific requirements
Protein Length	Full length
Protein Form	Soluble
Storage	Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target

Target Protein	GTPV_gp014
Full Name	anti-apoptotic membrane protein
Alternative Names	GTPV_gp014; anti-apoptotic membrane protein; inhibits apoptosis of infected cells; similar to Yaba monkey tumor virus 16L; The poxviridae are enveloped unsegmented dsDNA viruses; unlike many dsDNA viruses that replicate in the host nucleus poxviruses encode their own replication machinery and therefore replicate in the cytoplasm; viral genes are expressed in a bi-phasic manner with early genes genes encoding non-structural proteins involved in genome replication and late genes encoding the viral structural proteins; Members of the genus Yatapoxvirus, which include Tanapox virus (TPV) and Yaba monkey tumor virus, infect primates including humans
