

Goatpox Virus (Pellor) GTPV_gp034 Recombinant Protein

Made to Order

Cat: MPYF-1122-KX666

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Goatpox Virus (Pellor) GTPV_gp034 recombinant protein. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Specifications

| | |
|----------------|---------------|
| Target Protein | GTPV_gp034 |
| Species | Goatpox Virus |
| Strain | Pellor |
| Protein Class | Virology |

Product Description

| | |
|--------------------|--|
| Expression Systems | Based on specific requirements |
| Protein Tag | Based on specific requirements |
| Protein Length | Full length |
| Protein Form | Soluble |
| Storage | Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles. |

Target

| | |
|-------------------|---|
| Target Protein | GTPV_gp034 |
| Full Name | hypothetical protein |
| Alternative Names | GTPV_gp034; putative membrane protein; similar to vaccinia virus strain Copenhagen E8R; The poxviridae are enveloped unsegmented dsDNA viruses; unlike many dsDNA viruses that replicate in the host nucleus poxviruses encode their own replication machinery and therefore replicate in the cytoplasm; viral genes are expressed in a bi-phasic manner with early genes encoding non-structural proteins involved in genome replication and late genes encoding the viral structural proteins |
| Gene ID | 5228312 |
