

## Lumpy Skin Disease Virus (Neethling 2490) LSDV048 Recombinant Protein Made to Order

Cat: MPYF-1122-KX728

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Lumpy Skin Disease Virus (Neethling 2490) LSDV048 recombinant protein. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

### Product Specifications

|                |                          |
|----------------|--------------------------|
| Target Protein | LSDV048                  |
| Species        | Lumpy Skin Disease Virus |
| Strain         | Neethling 2490           |
| Protein Class  | Virology                 |

### Product Description

|                    |                                                                                                                                |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Expression Systems | Based on specific requirements                                                                                                 |
| Protein Tag        | Based on specific requirements                                                                                                 |
| Protein Length     | Full length                                                                                                                    |
| Protein Form       | Soluble                                                                                                                        |
| Storage            | Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles. |

### Target

|                   |                                               |
|-------------------|-----------------------------------------------|
| Target Protein    | LSDV048                                       |
| Full Name         | LSDV048 putative virion core protein          |
| Alternative Names | LSDV048; LSDV048 putative virion core protein |
| Gene ID           | <a href="#">921656</a>                        |
| UniProt ID        | <a href="#">Q91MV9</a>                        |
