Fowlpox Virus (NVSL) FPV214 Recombinant Protein

Made to Order

Cat: MPYF-1222-KX813

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Fowlpox Virus (NVSL) FPV214 recombinant protein. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Specifications

Target Protein	FPV214
Species	Fowlpox Virus
Strain	NVSL
Protein Class	Virology

Product Description

Expression Systems	Based on specific requirements
Protein Tag	Based on specific requirements
Protein Length	Full length
Protein Form	Soluble
Storage	Aliquot and store at -20°C or lower. For long term storage, we recommend to store a t -70°C or lower. Avoid freeze/thaw cycles.

Target

Target Protein	FPV214
Full Name	putative interleukin binding protein
Alternative Names	FPV214; putative interleukin binding protein; similar to Fowlpox virus FPV214; likely involved in host immune evasion; The poxviridae are enveloped unsegmented dsDN A viruses; unlike many dsDNA viruses that replicate in the host nucleus poxviruses encode their own replication machinery and therefore replicate in the cytoplasm; vir al genes are expressed in a bi-phasic manner with early genes encoding non-struct ural proteins involved in genome replication and late genes encoding the viral struct ural proteins; canarypox and fowlpox are members of the Avipoxvirus genus and inf
